

KP GUTTER BROOMS

KEYSTONE PATENTED WIRE GUTTER BROOMS

Keystone's New Gutter Brooms Manufactured with Patented Wire

INTRODUCTION: The most frequently asked question we get when we introduce one of our customers to a KP (Keystone Patented) Wire Gutter Broom is, **"Why Patented Wire?"**

The answer is quite simple: **Patented Wire has demonstrated to be a much stronger and harder wire with greater resistance to fatigue than traditional Gutter Broom wires.**

And the typical customer response after testing a Keystone Patented Wire Gutter Broom has been that **Keystone's Patented Wire Gutter Broom has met or exceeded their expectations, on even the toughest street sweeping applications.**

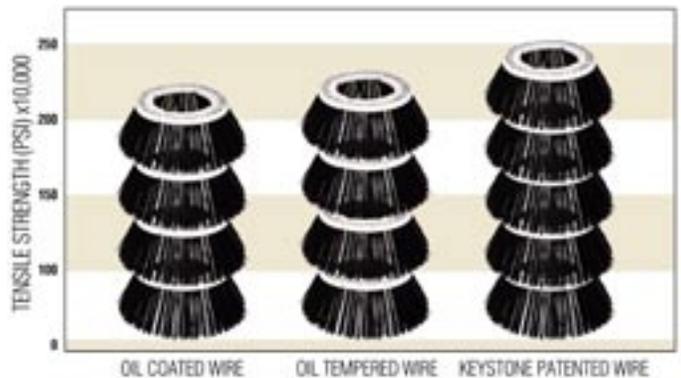

A major concern in manufacturing steel is the loss of strength properties through the production process that can cause the steel to prematurely break-down, weaken or fail. However, in the patenting process, steel wire is gradually heated and then cooled in a controlled environment allowing it to be flattened, or cold rolled, without sacrificing the key characteristic of the steel – strength.

Apply this technology to gutter brooms where strength and durability of the product are the user's main concerns, and you can begin to understand the benefits of Patented Wire. This includes the steel's resistance to bending and stretching (hardness), resistance to fatigue from repeated stress, flick strength and ability to maintain its original shape.

For more information about Patented Wire, or to discuss a particular product application, **call Jack Moran, Keystone Sales Manager, at 1-800-635-5238.**

KP WIRE GUTTER BROOMS

A full line of KP Gutter Brooms are available for every make and model sweeper on the road today. Topped with high impact resistant co-polymer blocks, patented wire has a long-lasting and durable spring action keeping KP Gutter Brooms firm, in-shape, and ready for heavy duty curb sweeping jobs. They're built to last.

Made in the USA, Keystone offers "in-stock" product availability and incredible turnaround time. Keystone products are easy to install and have long life and rugged dependability that will keep your sweeper on the road working longer for you. Keystone prides itself on customer service and satisfaction. The performance of our products is guaranteed because we understand the expense involved with downtime.

OVER 50 YEARS OF INNOVATION, QUALITY AND CUSTOMER SERVICE: TRUST THE GUYS WHO KNOW THE INDUSTRY
